

INEOS
GRENADIER

Project Engineer (m/f/d) (Location: Böblingen, Germany)

INEOS Automotive: We have one goal: Manufacture, launch and deliver uncompromising, best-in-class vehicles. It's been an exciting Grenadier journey since our inception in 2017. We've flown past many milestones and, despite the global challenge of 2020, we're on track to deliver our plan. At INEOS Automotive, we're always looking for people who can bring new perspectives to our teams. People with entrepreneurial spirit, who enjoy taking on new challenges and are comfortable with handling risks and uncertainties. 2021 and 2022 are our years of execution and as a **Project Engineer (m/f/d)** you will play a huge part in this. If you are looking to join a scale-up business that values your curiosity, drive, and expertise whilst taking on a career defining role, then INEOS Automotive welcomes your application.

Your Role: The role will manage vehicle, lifecycle and other programmes at INEOS Automotive. Reporting to a project manager, the role will be responsible for delivering a broad range of inputs to a successfully managed programme. The goal of the Project Engineer is to lead the delivery of programmes on schedule and maximising the returns to INEOS Automotive.

Some responsibilities include (but are not limited to):

- Support all Programme Management activities.
- Execute the project spec book, as set out by Autoboard and sanctioned by EXCO.
- Develop the programme strategy where necessary.
- Develop the business case programme within a templated framework (working closely with Finance).
- Maintain business case data as created by respective departments.
- Support preparation of business cases for internal presentation (Autoboard, Chairman, EXCO etc.).
- Support the departmental teams to stay within budgets.
- Support resource planning through programme.
- Draw support from established programme (on a limited basis).
- Support meeting structure to include Leads, Steercom and EXCO events.
- Support preparation of timing plans for internal presentation (Autoboard, Chairman, EXCO etc.).
- Implement decision making procedures.
- Ensure necessary project governance.
- Store and maintain programme data.

For the Project Engineer (m/f/d), we are looking for:

- Minimum 4 years' experience gained at an automotive OEM. Candidates preferred from Programme or Engineering backgrounds.
- Highly numerate and comfortable preparing sophisticated business cases or financial models.
- Automotive programme management know-how.
- Able to build and maintaining productive relationships and mediate between stakeholders.
- Excellent scheduling and long-term planning capabilities.
- Demonstrable strategic thinker with experience of NPI (New Product Introduction).
- Able to lead cross-functional teams, recognising the objectives of respective stakeholders.
- English language is mandatory.
- German language would be highly beneficial.

If the Project Engineer (m/f/d) role sounds of interest and you want to learn more, please apply with us today!
